Product Obsolescence Announcement

Dear Customer,

1. From PLM:

This memo outlines the Obsolescence details of the following Product(s):

DS2000-XP:

G369EXXX-XXXX-YYY

The reason for the obsolescence of this product is: **General end of life**

End of Life Announcement date: 10-Sept-12

Final date for last PO receipt: 30-Sept-13

Final date for last delivery of product: 30-Sept-14

Date of last repair/ Obsolescence: 30-Sept-20
(Extended Dec 2013)

The Drive Product Line will be able to accept orders for new product deliveries up until the "*Final date for last PO receipt*" as documented above.

The Drive Product Line will be able to provide new product deliveries up until the "*Final date for last delivery of product*" as documented above.

Repairs will be available until the "*Date of last Repair*" as outlined above, after that point the products listed above will be marked obsolete and Moog will not be able to deliver new products, refurbish products nor repair any of these products.

The replacement product is as follows (if available):

DS2110 or MSD

Please forward on the forecast for future deliveries (see following section) through PLM or account managers, to be received no later than, 30-Sept-13 *
Please note that while every attempt will be made to deliver the quantities requested, factors such as parts availability may limit the ability of the Product Line to deliver requested quantities. Any shortfall will be communicated to the sales organisation.

2. To Addressee:

Product quantities per Year (for the next **4** years)

Type Identifier ¹	Fiscal year				
	FY' 12	FY' 13	FY' 14	FY' 15	FY' 16

Comments:

* Date for Final POs now passed.

Many thanks for your help in this important process.

Kindest Regards

Ernest Keffe
Moog Drives Product Line Manager
